Iran's Stockpile of Enriched Uranium has Jumped, U.N. Atomic Agency Says

Iran has nearly tripled its stockpile of enriched uranium since early November, the United Nations' atomic agency said Tuesday, prompting warnings from experts and diplomats that Tehran has slashed the time it would need to amass enough fuel for a nuclear weapon. Iran also substantially increased the number of machines it is using to enrich uranium, the agency said, allowing it to make more of the nuclear fuel faster. The confidential report provided to member states and obtained by The Washington Post is the first since Iran announced it would no longer adhere to any of the nuclear pact's restrictions on uranium fuel production. Iran—the world's leading state sponsor of terrorism—remains Israel's and America's greatest long-term threat in the Middle East.

PASSOVER COLLECTION FOR JFS FOOD PANTRY

There will be many among us who will struggle to put food on the table, let alone those special items to celebrate a Seder.

YOU can help make a difference. K.I. is collecting donations of dessert mixes & grape juice. All packaged items should be labeled “Kosher for Passover.” Drop off items in the JFS barrels located in the lobby through the end of March. Monetary donations are also being accepted by check or online through the JFS site jfskc.org; funds are used to purchase food items to include in the holiday food packages.
