**ISRAEL UPDATE --
January 12, 2018**

U.S. House Cheers Iran's Protests, Condemns Human Rights Violations

The U.S. House of Representatives overwhelmingly passed a resolution Tuesday supporting the Iranian people's right to free expression while condemning the country's leadership for crackdowns on recent protests, Voice of America reported. The 415-2 vote comes just days ahead of the beginning of a congressionally mandated 60-day window for lawmakers to address U.S. President Donald Trump's decision to not re-certify the 2015 Iran nuclear deal. At least 21 people have been killed in nationwide anti-government protests that began last month. "With the passage of this resolution, we state that America stands with the Iranian people," Representative Ed Royce, Chair of the House Foreign Affairs Committee, said Tuesday. The protests have since dwindled amid arrests of more than 3,700 people, according to one Iranian lawmaker. The demonstrations were the largest in Iran since the June 2009 "Green Revolution," triggered by a presidential election that protesters said was fraudulent.
